This is a minimalist architectural elevation drawing of a building facade. The drawing is composed of black lines on a white background. On the right side, there is a large rectangular window with a multi-paned design. To the left of the window, there are two vertical rectangular elements, possibly columns or pilasters. The overall composition is simple and modern, focusing on geometric forms and proportions.

Architectural floor plan of the Corredor (Corridor). The plan shows a long, narrow corridor with a sloped roof. Key dimensions and features include:

- Overall width: 14.0
- Overall height: 18.0
- Roof slope: 14.0
- Window dimensions: 15.0 (width), 9.0 (height)
- Door dimensions: 1.10 (width), 1.50 (height)
- Room label: CORREDOR
- Level marker: +0.60
- Scale: 1:000

This architectural drawing shows a side elevation of a building. The facade is characterized by a series of vertical structural columns that divide the space into three main bays. Each bay contains a large, multi-paned window unit. The windows are arranged in a grid pattern, with a larger central pane in each unit. The building is set against a plain background, and a dark horizontal line at the bottom represents the ground level. A small, angled roof element is visible on the far right side of the structure.

This architectural drawing shows a section of a building facade. It features three identical window units arranged horizontally. Each unit consists of a large rectangular window divided into four vertical panes. Below the main window is a smaller, single-pane window. The entire facade is framed by a thick black line at the bottom and a thin black line at the top. The drawing is rendered in a simple, schematic style with black lines on a white background.
