

Technical drawing of a mechanical assembly, likely a pump or engine component, showing a cross-section. The drawing includes the following dimensions and labels:

- $1' \times 3''$ (top left)
- $2' \times 3''$ (middle left)
- $2'' \times 4''$ (bottom left)
- $2'' \times 3''$ (middle right)
- $1' \times 2''$ (top right)
- $2'' \times 3''$ (bottom right)
- $1' \times 2''$ (bottom right, near the base)

The image contains two architectural drawings of a window frame, labeled 1-1 and 2-2.

Section 1-1: This is a vertical cross-section of the window frame. It shows a top horizontal member labeled $2'' \times 4''$ and a central vertical member labeled $2'' \times 3''$. To the right of the vertical member is a vertical line representing the glass pane, with a small gap labeled $1/8''$ between the frame and the glass. The section is indicated by a circle with the text "1-1" inside.

Section 2-2: This is a horizontal cross-section of the window frame. It shows a vertical member labeled $2'' \times 3''$ and a horizontal member labeled $2'' \times 4''$. Below these is a sloped member labeled $2\frac{1}{2}'' \times 6''$. The section is indicated by a circle with the text "2-2" inside.
